Color Psychology in Marketing and Branding is All About
The psychology of color as it relates to persuasion is one of the most interesting — and most controversial — aspects of marketing. At Help Scout we believe the problem has always been depth of analysis. Color theory is a topic of complexity and nuance, but color psychology in marketing and branding is typically represented in splashy infographics that rarely go beyond See ‘n Say levels

How to Use the Color Wheel to Pick Your Perfect Color
Nov 04, 2021 · The wheel makes color relationships easy to see by dividing the spectrum into 12 basic hues: three primary colors, three secondary colors, and six tertiary colors. Once you learn how to use color wheel theory and its hundreds of combinations, the color wheel can provide a helpful reference when deciding what colors to try in your home.

The Martian Colour Wheel - Warren Mars
A colour wheel of equally spaced 24 hues and 5 tones each giving a representative colour vocabulary of 120 mostly saturated colours. Each colour is named after an unambiguous real world examplar and an example is given to justify the name. Finally, we can name colours accurately in a common sense manner without resorting to arcane Pantone numbers, incorrect web colours or clumsy Munsell names.
